Bees love Lavender

Fun Facts

Mostly bumblebees visit lavender because they have the longest tongue of all bees which is quite useful for getting the nectar.

Did you know that lavender can have different colours?

- Lilac
- Blue
- Violet
- Purple
- Yellow

Earthworms
are

digging
eating
fertilizing
NON STOP

Helping Hand

Earthworms have special cells in their skin that are sensitive to light.

So if you find a worm, put a leaf over it, this will protect it from sunburn.

How do you know where the front is on an earthworm?

The end where it laughs when you tickle it is the front.
